**Supplementary figure 1. Transcriptomic expression change comparison between Lynronne-1, Lynronne-2 and Lynronne-3 alongside ciprofloxacin.** The top 50 most changed genes as compared to an untreated control have been compiled for each treatment, and the heatmap generated using ClustalVis online webtool (Version 2.0, accessed on 10/11/2022 at <https://biit.cs.ut.ee/clustvis/>).
